Part IV - Acceptance Conditions

EPA IAG Identification Number

27. General Conditions

The other agency covenants and agrees that it will expeditiously initiate and complete the project for which funds have been awarded under this agreement.

28. Special Conditions (Attach additional sheets if needed)

This agreement may be terminated by either Agency upon 30 days advance written notice, prior to site mobilization.

Any requirements for payment or obligation of funds, by the Department of Energy established by the terms of this agreement shall be subject to the availability of appropriated funds, and no provision herein shall be interpreted to require obligation or payment of funds in violation of the Anti-Deficiency Act, 31 U.S.C. Section 1341. In cases where payment or obligation of funds would constitute a violation of the Anti-Deficiency Act, the dates established requiring the payment or obligation of such funds shall be appropriately adjusted.

DOE agrees to reimburse EPA for all costs associated with the response. EPA will submit to DOE a demand for reimbursement of EPA's costs associated with the mine reclamation activities incurred on DOE property. (Continued on Attachment 2)

Part V - Offer and Acceptance

Note: 1) For Funds-out actions, the agreement/amendment must be signed by the other agency official in duplicate and one original returned to the Grants Administration Division for Headquarters agreements or to the appropriate EPA Regional IAG administration office within 3 calendar weeks after receipt or within any extension of time as may be granted by EPA. The agreement/amendment must be forwarded to the address cited in Item 29 after acceptance signature.

Receipt of a written refusal or failure to return the properly executed document within the prescribed time may result in the withdrawal of the offer by EPA. Any change to the agreement/amendment by the other agency subsequent to the document being signed by the EPA Action Official, which the Action Official determines to materially alter the agreement/amendment, shall void the agreement/amendment.

2) For Funds-in actions, the other agency will initiate the action and forward two original agreements/amendments to the appropriate EPA program office for signature. The agreements/amendments will then be forwarded to the appropriate EPA IAG administration office for acceptance signature on behalf of the EPA. One original copy will be returned to the other agency after acceptance.

ATTACHMENT 1 DRAFT INTERAGENCY AGREEMENT

The Environmental Protection Agency Emergency Response Section will provide the following services to the Department of Energy on the DOE parcel identified as the south east quarter (SE 1/4) and the south half of the north half (S 1/2, N 1/2) of Section 13, Township 13 North, Range 11 West, New Mexico Meridian located in McKinley County, New Mexico.

Pursuant to Section 300.415 of the National Contingency Plan, EPA will conduct site stabilization and mine reclamation activities at this site. The purpose of this response is to prohibit the migration of radionuclide contaminants and reduce the elevated gamma radiation emissions associated with the large piles of uranium bearing protore and improper mine closure.

To accomplish this task, EPA and its contractors will excavate and refill mine entrances with protore, mine waste and debris, properly close all adits and shafts, fill and cover all open pits and protore piles emitting at elevated gamma radiation in excess of 180 microroentgens per hour (uR/hr) including background (waist level measurements, 165 uR/hr above the area background estimated to be 15 uR/hr). Covered areas will be reduced to 50 uR/hr above background.

TASKS TO BE PERFORMED

- 1) EPA will conduct a 50 X 50 foot gamma survey using Ludlum 19 instruments to delineate elevated gamma radiation areas. Contour maps will be generated from the data.
- 2) Fill material will be utilized within the DOE property and if necessary purchased from adjacent property to cover areas of elevated gamma radiation (165 uR/hr above background). Covered areas will be graded, sloped (3 to 1) and vegetated to withstand natural erosion.
- 3) Open adits will be backfilled with protore and filled. Overburden material will be contoured and sloped to avoid reopening of the mine opening.
- 4) Mine vent shafts will be backfilled and plugged with concrete.
- 5) All disturbed areas will be revegetated with natural grasses and sloped to resist erosion.
- 6) EPA will provide biweekly progress reports in the form of Pollution Reports (POLREPS) to the DOE. At the completion of the project EPA will provide DOE with a copy of the OSC report. EPA will also submit to the DOE a detailed report of incurred costs.
- 7) DOE will be responsible for conducting periodic inspections and, if necessary, maintenance of the reclaimed area.

Attachment 2

The EPA, as the Agency providing the Federal On-Scene-Coordinator, shall provide a report which summarizes the EPA activities at the Site upon completion.

A breakdown of charges is not currently available, however, it will be provided in detail to DOE prior to EPA's request for reimbursement.

The demand will be made in the form of a letter and will be accompanied by Removal Cost Management System documentation and other cost documentation information that will serve as the accounting of EPA's expenditures. Payment shall be made by check payable to the United States Treasury and addressed to:
